HOAR SAYS A REPUBLIC IS BEING CRUSHED BY WAR

Questions the Accuracy of the Statements Generally Attributed to General Lawton.

Wants a Senate Committee to Investigate the Conduct of Hostilities in the Philippines.

Louisville, Ky., Jan. 14.—The letter from General H. W. Lawton, to che Senator Hoar referred in his speech in the senate today, was ten to John Barrett, ex-minister to Siam, and was dated Manila, 6, 1899. When General Lawton was killed, Mr. Barrett thought Lawton would value the letter highly and sent it to her at Louis-Ky. The part that has caused so much discussion follows: I agree that, it the real facts in connection with the history, in-action and conditions of this insurrection, and the hostile influence,

and external, such as the Catipunan and Juntas, that now encour-the enemy, as well as the actual possibilities of these Philippine isiis and people, and their relations to the great east could be undertood at home in America, we would hear no more political talk of untishooting of government into the Filipinos or unwise threats of thing down our flag in the Philippines.

"You are right. Some of us have modified our views since we first ame, and if these so-called anti-imperialists of Boston would honestly ascertain the truth on the ground here and not in distant America, they show I dislike to believe to be other than honest men misinformed, would be convinced of the error of their exaggerated statements and onclusions and of the cruel effect of their publications here. They sant to caution me about exposure under fire, but if I am shot by a rilipino builet, it might as well come from one of my own men. These are strong words, and yet I say them because I know from my own observation, confirmed by the stories of captured Filipino prisoners, that the continuance of fighting is chiefly due to reports that are sent out from America and circulated among these ignorant natives by the leaders, who know better."

TO CUT DOWN TARIFF ON STEEL PRODUCTS

Washington, Jan. 14.—Representative Babcock of Wisconsin today introduced a bill placing a number of articles of the iron and steel schedule on the free list, and materially reducing the duties on other articles throughout the iron and steel schedule. The presentation of this bill has been awaited with much interest, owing to the attention aroused last year by a somewhat similar bill, and Mr. Babcock's position, both as a Republican and member of the ways and means committee and chairman of the Republican congressional committee. The bill is more extended than that of last year, and was drawn after conferences and correspondence with the steel and iron interests, the purpose being to place the rate on a strictly protective basis. The articles placed on the free list are the heavy products of the furnace, while the rates on other articles of the schedule average about one-half the present rates. iron and steel schedule on the free list,

GERMAN TARIFF BILL AIMED AT AMERICA

Berlin, Jan. 14.-Baron Heyl Zu Herrisheim (national liberal) proposed an amendment to the tariff bill in committee today. It was aimed at the United States. The amendment authorizes the government to apply to imports from any foreign state such regulations respecting the consular authentication of invoices of such imports, the declaration of their market value and the cost of their production, as may be enforced against German exports.

The language of the amendment is fashioned after the American law and is regarded by the committee as undoubtedly designed to offset the customs requirements of the United States and to satisfy the complaints of German manufacturers. This amendment has not yet been discussed, but inquiry of some members of the committee has elicited the statement that say that it is more than likely to be adopted. heim (national liberal) proposed an
